

MADE FROM COFFEE

We specialize in manufacturing ecological tableware made from coffee grounds and biopolymeric resins derived from sugar vegetables.

The first prototype of our cup was created on November 27, 2020, and since then, the company has been experiencing dynamic growth.

Our headquarters are located in Raszyn near Warsaw, where the production process takes place. We strive to create unique items that combine innovation with environmental care.

*Patryk Lesisz*

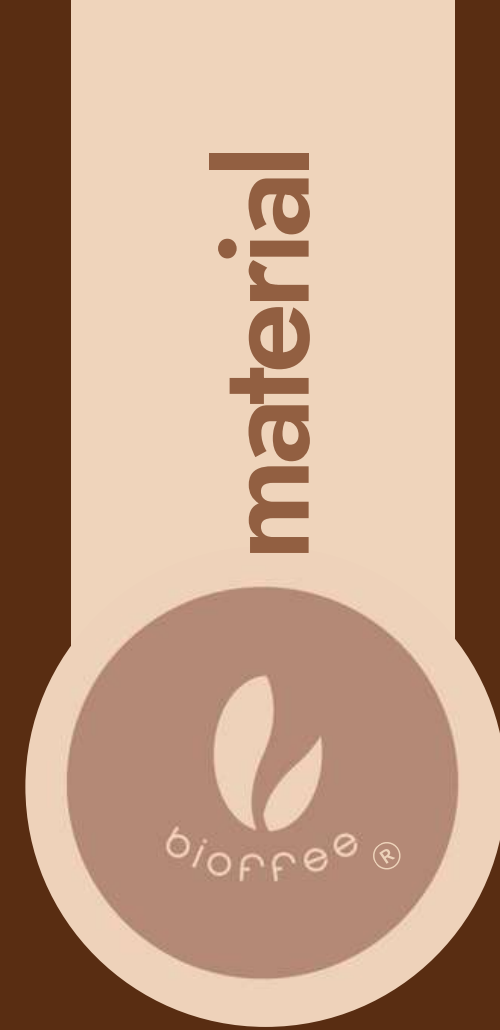

# What do we create at bioffee?

"We combine durable materials from sugar cane with coffee waste. For us, they are valuable resources."

# What do we shape in bioffee?

*"Bioffee vessels are sturdy constructions that will serve you for years! The durability of our natural materials is comparable to that of synthetic ones."*

# More about the products

info

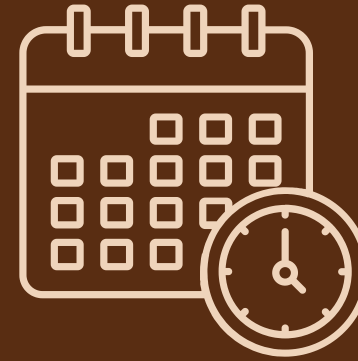

- Made from recycled coffee grounds and
- compostable plant material sourced from sugarcane,
- With a lifetime warranty against breakage and cracks,
- Classic shape and natural coffee color,
- Unique, fine-grained texture,
- Reusable and dishwasher-safe up to 50°C,
- Highly resistant to damage, Ideal for environments prone to ceramic or porcelain breakage,
- Retains heat much better than ceramic or porcelain,
- Upon opening the box, you'll smell the aroma of coffee! The delicate scent of the cups lasts for several washes,
- The price for a cup without a saucer is 65% of the set's value,
- For orders without packaging, products are packed in bulk packaging,
- Coffee grounds come in various colors, so production batches may differ slightly in color. However, each order will include products from the same batch.

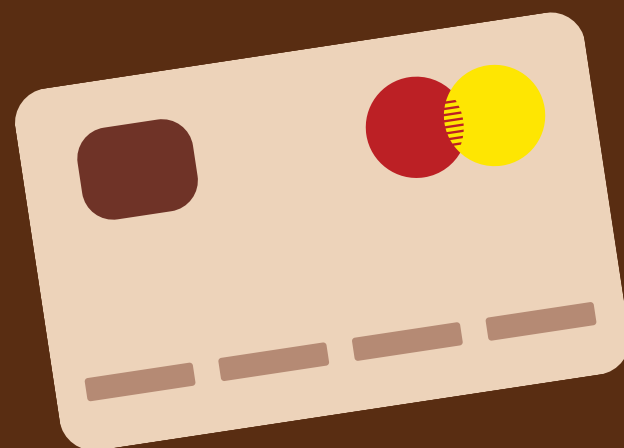

# Trade and Delivery Terms

- The prices provided are net prices in EUR,
- **Delivery Time:** Dependent on quantity and machines workload.
- To be determined on a case-by-case basis.
  - Estimated: 10-499 units: 2 weeks.
  - 300-5000 units: 2 weeks / 3 weeks.
- **Payment Terms:** Advance payment - Proforma Invoice.
- **Offer Validity:** 30 days.
- This offer is not a legally binding offer under the Civil Code. The conclusion of the contract is possible only after negotiations, preceded by technical agreements between the parties and binding upon appropriate verification of the scope of delivery and local conditions.

### Żeby powstała jedna filiżanka z fusów, trzeba wypić 5 kaw – Patryk Lesisz (Bioffee)

Dodane: 02.01.2023  Kasia Krogulec

Udostępnij:

– Początki projektu finansowane były z własnej kieszeni. Forma na filiżankę została stworzona za pieniądze z wesela, a forma na spodek z własnych oszczędności. Staramy się o dofinansowanie z unijnych funduszy, jednak ostatnimi czasy zostały zamrożone – mówi Patryk

Forbes • Biznes • „Ten rynek jest tak duży, jak rynek kawy”. Bioffee – Firma, która rośnie na fusach

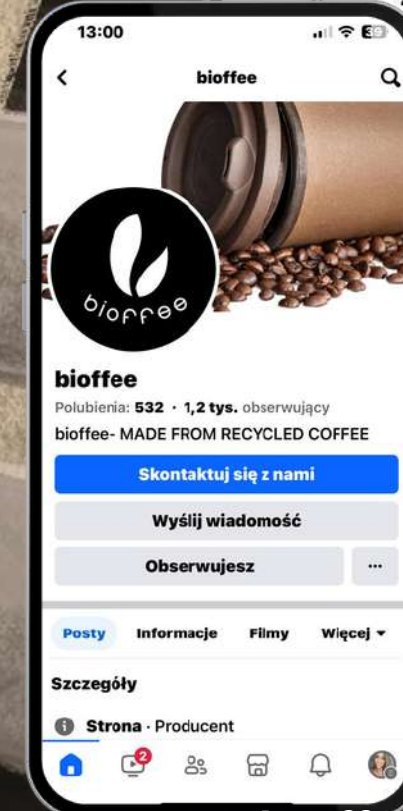

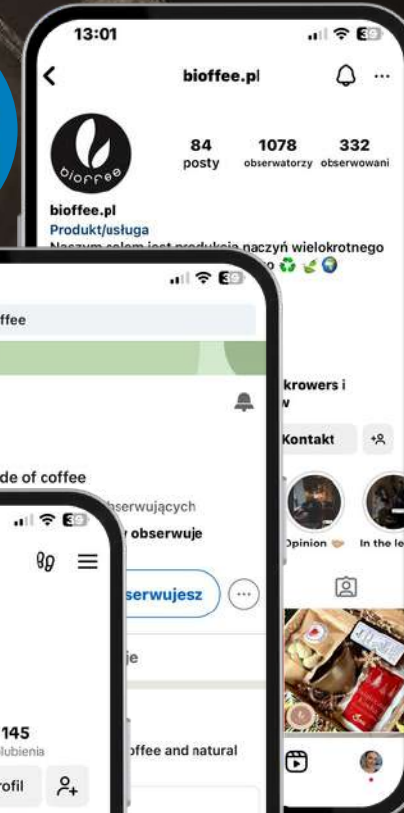

## „Ten rynek jest tak duży, jak rynek kawy”. Bioffee – Firma, która rośnie na fusach

Data publikacji: 17.03.2023, 12:58

BOGDAN MOZDZYŃSKI

Pić kawę z filiżanki wykonanej z kawowych fusów? Czemu nie? Zamiast powiększać stopy śmieci, fusy mogą stać się cennym surowcem. Patryk Lesisz opracował własną technologię, która nadaje popularnemu odpadowi kolejne życie. Teraz sprawdza, jak na tym dobrze zarabiać
